

WRITE LIKE A PRO : Supercharge Your Scientific Writing

9, 16 and 23 April 2025

1400 - 1600 (GMT+8) | Live in Zoom

This is an online training course, organized by Asia Pacific Association of Forestry Research Institutions (APAFRI). It offers valuable guidance on preparing scientific manuscripts intended for journal. In today's rapidly evolving research landscape, integrating AI tools into manuscript preparation can enhance efficiency without compromising on scientific integrity. Through carefully designed lectures, real-world examples, and hands-on exercises, participants will gain practical insights into effective scientific writing. Suitable for both early-career and experienced scientists. This course aims to refine technical writing skills and improve manuscript quality for journal submission.

Date	Time (GMT +8)	Topic
9 Apr 2025	1400 – 1600	Supercharge your writing habits.
16 Apr 2025	1400 – 1600	Supercharge your title, abstract, introduction and methods.
23 Apr 2025	1400 – 1600	Supercharge your results, discussion and referencing

Please register at <https://forms.gle/dKG3LF7Qo3dyFaN18>

Deadline: 2 April 2025

About the Instructor:

Dr. Gopalamy Reuben Clements is a conservation scientist by training, co-founder of Nature-based Solutions Sdn Bhd and currently a Sustainable Finance Specialist, Zoological Society of London. He received his PhD in conservation science from James Cook University and obtained his MSc and BSc in biology from the National University of Singapore. Reuben's research focused on forest and biodiversity conservation and has published over 100 articles that include Nature and is an editorial board member with international peer-reviewed journals such as Climate Change Ecology and Biology Letters. His work has been featured in the BBC, New York Times and National Geographic, and was a finalist with the 2023 Rolex Award for Enterprise.
